

CLINICAL RESEARCH STUDY

EVALUATING AN INVESTIGATIONAL MEDICATION FOR SCHIZOPHRENIA

NOW ENROLLING

CLINICAL RESEARCH STUDY FOR PATIENTS RECENTLY DIAGNOSED WITH SCHIZOPHRENIA

**Have you, or someone you know been recently diagnosed
with schizophrenia?**

Mid-America Clinical Research is currently seeking patients aged 18 to 35 who have recently been diagnosed with schizophrenia to participate in a clinical research study.

Volunteers may be eligible to participate in this study if they:

- Are between 18 - 35 years of age
- Have been diagnosed with schizophrenia within the past 5 years

Eligible participants will receive study-related procedures and study medication at no charge. They will also be compensated for their time.
